FIVE DISTINCT LANDSCAPE GEOMETRIES

Same resort site reference | Different spatial and circulation systems

Read each option by its geometry, not by its vegetation color.

12 | FISH SCALES

Staggered scallops

Large semicircular rooms in alternating rows; curved crosswalks and clear connectors.

13 | SEA FOAM

Circles and tangents

Graduated circular rooms joined by short broad links and a continuous access route.

14 | SEA SALT CRYSTALS

Orthogonal stepped terraces

Square and rectangular rooms, right-angle connections and stepped extensions.

15 | KELP FRONDS

Long connected blades

Large tapered ribbon beds grow from a shared base; open walks pass between them.

16 | RIBBED SCALLOP SHELL

Spokes and concentric arcs

Straight radial paths from a hinge plaza linked by arcuate crosswalks.

Preliminary visual concepts; dimensions and exact site-line registration require CAD verification.

12 | FISH SCALES | Staggered scallops
